Muhammad Abdullah

Front End Developer

Summary

Passionate and detail-oriented Front-End & WordPress Developer with a strong foundation in HTML, CSS, JavaScript and WordPress development. Skilled in designing and developing responsive, user-friendly, and high-performance websites with expertise in custom themes.

Projects

Royal Fitness Management

Tools: HTML, CSS, JAVA Script, Php etc

Designed and developed a user-friendly, visually appealing website for **Fitness Empire Gym**. The platform enhances o**nline visibility**, provides **class schedules**, **membership details**, and **booking options**. It includes mobile responsiveness, seamless navigation, and interactive features like blogs and event updates, ensuring an engaging experience for both potential and existing members.

Netflix Clone

Tools: HTML, CSS

Developed a **responsive Netflix UI clone** using **HTML5 & CSS3**, focusing on a sleek design, **flexbox & grid layout**, and **smooth animations**. Ensured a **mobile-friendly experience** with media queries for seamless responsiveness.

Mini Calculator

Tools: HTML, CSS, JAVA Script

I created a simple mini calculator using **HTML**, **CSS**, and **JavaScript**. The application performs basic arithmetic operations like addition, subtraction, multiplication, and division. The clean and intuitive interface makes it easy to use for anyone. This project allowed me to refine my skills in front-end development, focusing on creating an interactive and visually appealing design using **HTML** and **CSS**, while **JavaScript** handles the core functionality of the calculations. It was a great opportunity to strengthen my understanding of web development fundamentals.
